- Board games

PROFILE

I have a degree in Biology and Law and for the past 8 years I worked in a public company administrative sector. Dissatisfied with the company's internal environment and feeling stagnant, I felt I should seek out for new challenges. As I have always loved technology and computer programming, I decided that it was a great moment to launch myself in this market so, in 2020, I made the Le Wagon's coding bootcamp and I am very excited about the world of possibilities that the acquired knowledge has opened up for me.
